Proceedings of the Government of His Highness the Maharaja of Mysore.

NO. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER —As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc , relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars whereon the necessary entries in the register aforesaid should be made When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title The money will afterwards be made payable to the seller from any treasury in the State according to his convenience

2 If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc , will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare

3 The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4 A commission of $\frac{1}{16}$ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,
Financial Secretary.

IMPORT AND EXPORT REGULATIONS

The 22nd June 1918

No 5140—The following list of restricted imports, issued by the War Trade Board of the United States of America, is published for general information —

LIST OF RESTRICTED IMPORTS No 1.

(W. T B R 82)

23rd March 1918

Under the power conferred upon him by the Trading with the Enemy Act, the President, on February 14th, 1918, issued a proclamation which required an import license for all articles from all countries The chief purpose of this was to enable this Government to eliminate less essential imports to the end that tonnage might be conserved, and additional shipping be made available for the transportation of troops and supplies to Europe Similar steps have been found necessary by the other allies, and England particularly has found it necessary to impose most drastic import restrictions in order to most effectively devote her shipping to the successful prosecution of the war

For many weeks past, a corps of specialists have been giving the closest study as to the manner in which this import restriction would be exercised so that the greatest saving could be accomplished with the least injury to our ordinary commercial activities The question was still further complicated by the earnest desire of this Government to affect as little as possible the Industry and Commerce of the countries associated with us in the war, and to work as little hardship as possible to neutrals The question involves close co-operation with the Shipping Board and consultation with the State Department, the Treasury Department, the Food Administration, and other Branches of the Government, as well as the War Trade Board, within whose Province falls the actual administration of the control As a result of these deliberations, the War Trade Board through its Bureau of Imports publishes the first list of Restricted Imports.

Applications for license to import the articles appearing on the list will not be granted except under the following circumstances —

(1) When the articles mentioned are actually shipped from abroad prior to 15th April 1918

(2) When coming by rail from Mexico or Canada when the goods in question originated in those countries or in others from which such goods are being licensed for import

(3) When coming as a return cargo from European points and then only (*a*) when coming from a convenient port, (*b*) when loaded without delay and (*c*) when the importation from Europe is not specifically prohibited in said List

In the future, therefore, applicants for licenses to import articles mentioned in the list will be obliged to show in their applications the existence of such of the facts above outlined as will warrant the granting of such licenses In the case of shipments from European points, the most satisfactory evidence will be proof that shipping space has been actually engaged The present form of application for Import license will generally be found adequate for this purpose, and where this is not found to be the case, a letter setting forth the additional facts should accompany such application

The United States Consuls have been instructed not to issue consular invoices on and after 15th April 1918, for the articles mentioned in the list without first being furnished with the number of the Import license or being given other evidence of the issuance of such license Shipping agencies are also advised not to accept for shipment consignments of the articles mentioned in the list without similar evidence of the issuance of the Import license This applies only to the articles mentioned in the List No proof of the issuance of the Import license for articles not so mentioned is to be required either by consuls before issuing consular invoices, or shipping agencies in accepting freight It will devolve upon importers,

therefore, to advise their shipper abroad by letter or cable, of the number of their Import license so that such shipper will be able to furnish the same to the consuls and the shipping agencies. This will mean that Importers must be diligent in applying for Import licenses a sufficient time in advance of the shipment so that the number of the Import license may be communicated abroad in ample time.

It should be borne in mind by importers that the publication of this List in no wise relieves them of the necessity of applying for license to import articles not on the list, as all commodities require an import license except such as are now permitted to be imported under general licenses.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

Proceedings of the Government of His Highness the Maharaja of Mysore.

NO. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars whereon the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of $\frac{1}{16}$ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,
Financial Secretary.
